(SPECIAL TO THE ALEXANDRIA GAZETTE.) WASHINGTON, D. C., June 28. THE POTTER INVESTIGATING COMMITTEE.

Interest in the proceedings of the Potter investigating committee seems to be dying out, and the spectators each succeeding day grow small by degrees, if not beautifully less.

The witness Dennis was again on the stand to-day. He was at the time of the election in Florida a candidate for the legislature of that State on the republican ticket, and was well versed in all the political affairs of that State. He believed, that it is inferred, that there were not so many republican votes in box No. 2, Archer precinct, of Alachua county, as there should have been, but he knew positively and directly, for he was a witness of the fact, that the republicans had in a room in his house, and from the registration list of the county, added two hundred and nineteen votes to the returns, so as to make the vote what he and they thought it should have been, and that the two men, Vance and Back, one a judge and the other a clerk of election, who had thus fraudulently changed the returns, had since that time been appointed to federal offices, one in the Treasury Department, in Washington, and one in the Custom House, in Philadelphia. The fact of this fraudulent change in the vote of Archer precinct was notorious throughout Florida before the official vote of that State had been declared. It was a matter that was talked of generally. He, however, stated that when he declined Gov. Hayes' repeated invitations to go upon the witness stand in Florida, upon the ground, as he then stated to him, that his evidence would be damaging to the republican cause, he did not inform him of this fraud, which he, the witness, and every body else in Florida was cognizant of. There were also, he said, other matters connected with the election in Florida which induced him to decline going on the witness stand. Witness got an appointment in the Secret Service of the Treasury Department after the election, but was not on secret service duty. Not liking that position he resigned and was appointed to another one, but before he got official notice of it, it was cancelled. He stated that since he had been in Washington he and Gov. Hayes had had a conversation about Florida affairs, and that during that interview Secretary Sherman had called and that the Secretary afterward took the Governor aside. He also exhibited a letter that Gov. Hayes had written recommending him for office. The sum of his evidence was to the effect that the Florida republicans knew that the result of the Presidential election depended upon that State, and that they had fraudulently added enough votes to make the State go for Hayes, and that most, if not all, of those engaged in the fraud had been subsequently paid for the parts they had taken by secret agents to Federal offices, and though he attempted to expunge Gov. Hayes, the attempt was a failure, for what was known to everybody in Florida was known to Gov. Hayes, who was there managing the radical case.

Gov. Hayes was next examined. His testimony was to the effect that he went to New Orleans and Tallahassee on his "own hook," and without the advice of the President, to see that the radicals, who had the control of the election machinery of both those States in their own hands, should not be cheated out of them by the almost impotent democrats; that he had recommended McLean and Cowell and Dennis to office to both Gov. Grant and Mr. Hayes, and that none of the frauds to which Dennis and McLean—who were his intimates in Florida, and letters from whom he exhibited—had testified under oath, had ever come to his knowledge until recently. He acknowledged that he had informed the radicals upon his arrival at Tallahassee, and before the vote of Louisiana had been announced, that that State had gone for Hayes.

Gen. Butler, in his cross examination of Dennis, made him acknowledge that the democratic fraud in Florida was only inferential, while that committed by the radicals was committed in his own eyes.

This report closed at half past two o'clock this evening. It was thought at that time that the committee would, when it adjourned to-day, recess until Monday, and that it would not continue in session probably for more than a week longer, when it would adjourn until some time in the fall.

Mr. Acklia arrived here to-day, and the report is has challenged Mr. Brooks, the editor of the Republican.

The Secretary of the Treasury to-day informed the Secretaries of War and Navy that there is no currency in the Treasury, and that they must consequently suspend issuing warrants for the present, but that in a short time enough would accumulate to pay all the warrants they might issue.

THE FIRST OF JULY.—Next Monday, the first of July, the new criminal code of Virginia goes into effect. After that date petty thieves, instead of being sent to jail, will be made to hug the whipping post and punished with stripes. The justice of court will have no discretion, except in cases of women, when they may, if deemed advisable, sentence them to imprisonment. On the 1st of July the Capital imprisonment will go to work on reduced pay, which is about twenty five per cent less than formerly. These gentlemen are required by the new law to keep their respective offices open for public business eight hours, instead of from 9 to 3 o'clock as now. There are now two clerks in the Library; after the 1st there will be one. Under the new arrangement the Governor will continue to draw his \$5,000 per annum. Out of that sum he will pay his private secretary or aid.—Richmond State.

The summing up of the evidence in the Armstrong murder trial at Camden began yesterday morning. The interest in this case remains unabated, the Court being again crowded.

A SECRETION THAT CONTAMINATES THE BLOOD.—When the bile is diverted from its proper channels, into the blood, which is always the case in liver complaints, it ceases to be a healthy secretion, and becomes a poison. Its general presence in the circulation, and its deposit in the skin, is indicated, by the suffusion of the skin with a milky or sallow tinge, by headaches, vertigo, nausea, pain in the right side and under the right shoulder blade, by indigestion, obstruction of the bowels, and other minor symptoms. Order may be substituted for this state of things, and further bodily evil averted by using the beneficent and tonic, Hostetter's Stomach Bitters, which by relaxing the bowels, promotes the escape from the circulation of bilious impurities; besides remedying the action of the liver, regular, active, and every trace of dyspepsia, this pleasant and purely vegetable and bilious medicine is not only infinitely more effective than any form of mercury, but is on account of its freedom from hurtful properties, infinitely to be preferred to that poisonous drug.

BY UNIVERSAL ACQUA ATEA'S CATARRHIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by Physicians in their practice, and by all civilized nations, proves them to be the best and most effectual purgative pill that medical science has ever discovered. Being purely vegetable no harm can arise from their use. In intrinsic value and curative powers no other Pills can be compared with them, and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, maintain the regular action of the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and delicate constitutions, where a mild but effectual cathartic is required. R. S. Leadbeater & Bro., Agents.
